

Monday the 20th to Friday the 24th of December 2021

Dear WeLearn Community:

First and foremost, I want to thank each and every one of you, as valued members of our ever-growing WeLearn community, for your support and understanding throughout this unusual and uncertain year. After what we've been through, I think we all deserve a big virtual hug from the man above (or at least your spouse and kids!!) this time of the year for having survived, showing our resilience and perseverance, maintaining our humor (mostly at least).

We had a wonderful Christmas party on Wednesday after our STEM Innovation showcase and are pleased to share a few pics of the event below.

Also, please note the [Robotixar STEM Robotics Camp](#) to be held at the WeLearn center next week. Further Information is provided below.

Looking Forward to the New Year

The Learner Success department would like to wish our entire WeLearn community a joyous holiday season and a Happy New Year!

We have been working hard over the December Flex Month and are excitedly looking forward to delivering greatly improved Mentoring, Counseling, Tutoring, and Personalized Learning to learners and parents starting next month. We have just completed our in-service training sessions and have identified a structure that should ensure all of our learners are moving forward on their personal pathways to identifying and pursuing their passions, as well as improving their skills in self-directed learning.

We are looking forward to contributing to the upcoming parent and student orientation activities and doing our part to make sure we are communicating clearly with all of our community.

Happy Holidays and here's to a wonderful New Year!
